COR - RMB Memo to Robert Macy, BOB 9 Aug 1958 COR 0100

On 5 Aug I was asked by Dr. Killian to join a meeting in his office which also included Mr. Quarles, Mr. Stans and Gen Goodpaster. The discussion concerned for the most part the ~~xx~~ ARPA/AF 117L Project but at the same time the current financial status of COORONA was reviewed. It was agreed that I would prepare a memo outlining and explaining changes in the estimate of the cost of this Project since it was originally approved.

I have now prepared this paper and attach a copy herewith. All figures and explanations therein contained were reviewed at the meeting referred to above but I believe Mr. Stans may wish to see the paper that resulted from that discussion. I wld appreciate any comments he or you may care to make.
